NATIONAL ONSITE SERVICE

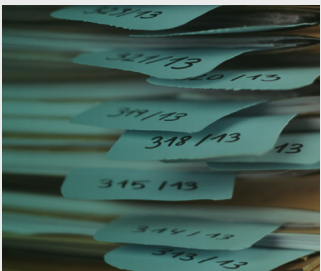

COMPLIANCE MADE EASY

Maintaining regulatory compliance is paramount to any healthcare facility. Toshiba has developed specific functions so that safeguarding patient information and meeting HIPAA compliance is simple. One-touch functions allow you to store and access patient records securely, and even monitor when, where and how records are printed.

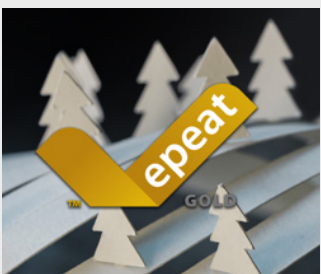

REDUCE WASTE AND CONTROL COSTS

Efficiencies are key to keeping costs down. We'll help you increase productivity by printing to a queue and retrieving jobs at any enabled printing device, implementing enforceable print rules, track jobs by authenticated user and enabling printing from mobile devices.

SIMPLIFY EMPLOYEE AND PATIENT RECORDS AND INCREASE PRIVACY

We can help you manage patient records and employee files by digitizing paper documentation. Files can then be stored electronically so they can be searched quickly and easily while keeping privacy a top priority.

EPEAT REGISTERED

We're proud to say that our products are EPEAT (Electronic Product Environmental Assessment Tool) rated, ensuring that you are using electronic equipment that meets specific environmental criteria, including design, production, energy use and recycling processes.

ABOUT VIZIENT

We are the largest member-driven, health care performance improvement company in the country. Backed by network-powered insights in the critical areas of clinical, operational and supply chain performance, Vizient empowers members to deliver exceptional, cost-effective care at every turn. Together with our members, we are fueling new business models and new approaches to care—all through the power of brilliant connectivity.
