

TOSHIBA

Business solutions for here, there, everywhere.

A comprehensive list of products and solutions designed
to create a work environment that evolves with you, no
matter where you work.

Tools for the office, home and beyond.

Award-Winning

Toshiba products and underlying technology consistently win major awards from prestigious industry and consumer organizations. Marketing Research Consultants, BTA, BLI and CIO recognize us for our product performance and superior service.

Committed to Quality

The Toshiba Quality Commitment is our guarantee that you're getting the utmost in advanced technology, dependability, service and support. Toshiba stands squarely behind our promise with the assurance of complete satisfaction.

EcoSmart

Committed to a sustainable future, we design eco-friendly products and partner with suppliers who share our vision. By reducing environmental impact and promoting eco-conscious practices, we strive to create a better world for generations to come.

SecureMFP®

Toshiba has long recognized security as a top priority for businesses. That's why we offer some of the most advanced print and MFP security features and programs, with multiple levels of protection to ensure that all your data remains right where it belongs.

Software Solutions

Our solutions are designed to help you manage your organization's print environment more efficiently, control access, strengthen security and provide your mobile workforce with cloud-enabled flexibility.

Section 508 Compliance

Toshiba offers a range of innovative features and assistive technologies on our multifunction printers (MFPs) that empower people with disabilities to overcome these barriers and participate fully in the workplace.

Managed Print Experts

At Toshiba, we've moved far beyond the box. Our people bring innovative, real-world solutions to all your print management needs. We'll help you cut costs, secure your documents and reduce your environmental footprint. And if there's one thing every business and our planet could use right now, it's managing to do more with less.

Multifunction Printers

Maximum productivity in every workplace.

We offer a full line of multifunction printers (MFPs) with an array of optional features and finishing options. Copy, print, scan and fax—our e-STUDIO™ MFPs are fast and productive, providing businesses like yours the capability and versatility to produce what you need, when you need it.

SMALL & PERSONAL MFPs

e-STUDIO™409As

Toshiba's e-STUDIO™409AS offers everything you need to get the job done, in less space than the average office chair. This new model provides copy, print, scan and fax at 42 pages per minute (PPM) and a host of features to further enhance office productivity. The 250-sheet universal cassette accommodates up to legal-size paper and can handle envelopes or other smaller sizes. A built-in 100-sheet bypass is ideal for letterhead or other specialty media.

Advanced Paper Handling

A holistic approach to security.

To ensure complete security coverage for your print and document environments, Toshiba's SecureMFP® approach looks holistically at your environment, including products, processes and people. We couple this with security assessments and services to ensure an end-to-end security strategy at every stage.

Device

- Self-encrypting hard drive
- Firmware & BIOS whitelisting
- End-of-Life automatic data erase

Access

- Restrict who, what, where
- Manage centrally & by role
- Monitor and audit in real-time

Document

- Secure document capture
- Encrypt information storage
- Secure document tracking & delivery

Cloud

- Built-in anti-malware protection
- Prevents ransomware & phishing attacks
- Malware detection

Fleet

- Remote monitoring & management
- Proactive alerts & automatic remediation
- Policy-based security management

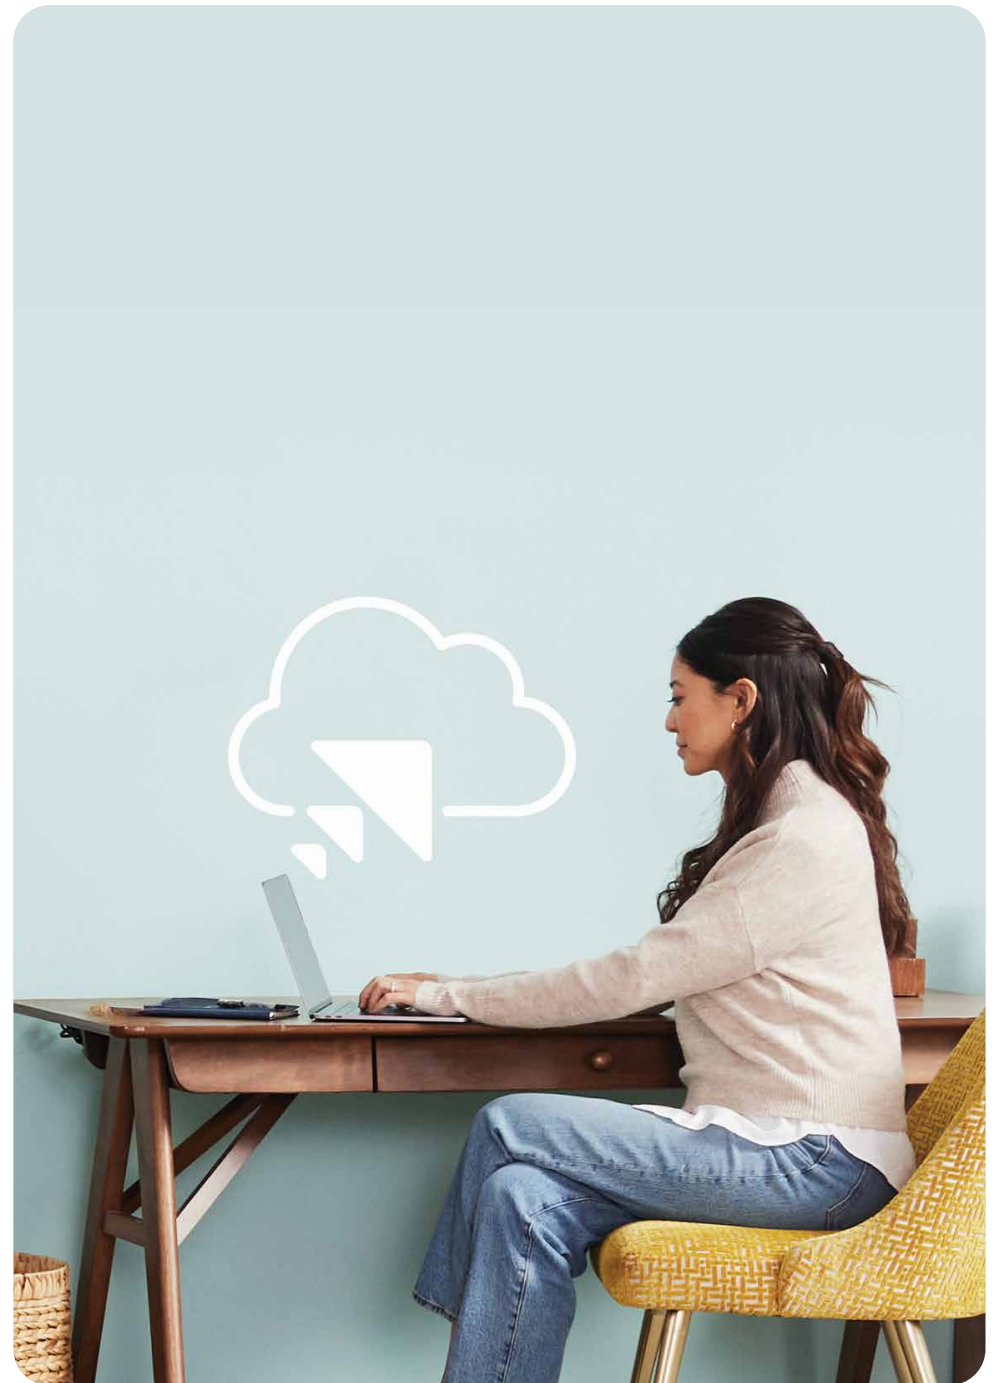

A whole new level of work starts here.

Today's new hybrid work environment demands that information be available and accessible from anywhere, at any time, for organizations to be efficient and productive. Cloud enablement is no longer an option but a requirement for all solutions and services currently in use. Welcome Toshiba's Elevate Sky®, from services to print management to workflows, we have you covered for maximizing digital productivity within the cloud.

Elevate Sky® allows you to:

- Improve productivity
- Reduce costs
- Increase security & manageability

Label & Receipt Printers

The performance leader.

Toshiba label and receipt printers are counted on daily for business transactions all over the world, across many industries. From barcode labels for shipping and warehouse management, to receipt and price tag printing for retail applications, to product identification in manufacturing or medical environments, Toshiba's long-lasting printers provide a low total cost of operation with minimal maintenance.

Weight: 3.31 lbs
Dimensions (W x H x D): 5.51" x 8.2" x 15.89"

Specialty Printers & Scanners

Quickly convert images into digital form and print more efficiently with a range of new product options.

We offer a wide variety of products and services and partner with other industry leaders like Lexmark™, Brother®, HP®, KIP® and Kodak Alaris™ to provide you with the best solutions.

SCANNERS

Kodak alaris

Kodak Alaris™ is a partner in the Toshiba Strategic Alliance Program. Together, we deliver synergy with MFP and document scanners to optimize operations and help convert paper to digital. As a leading provider of information capture solutions that simplify business processes, we offer a solution to fit every need, from ad-hoc desktop to back office high-volume scanning. Industry experts agree, like Keypoint Intelligence who has awarded Kodak Alaris™ with the 2024-2025 Pacesetter Award for Capture & IDP Partner. We exist to help the world make sense of information with smart, connected solutions powered by decades of image science innovation.

LASER PRINTERS

brother

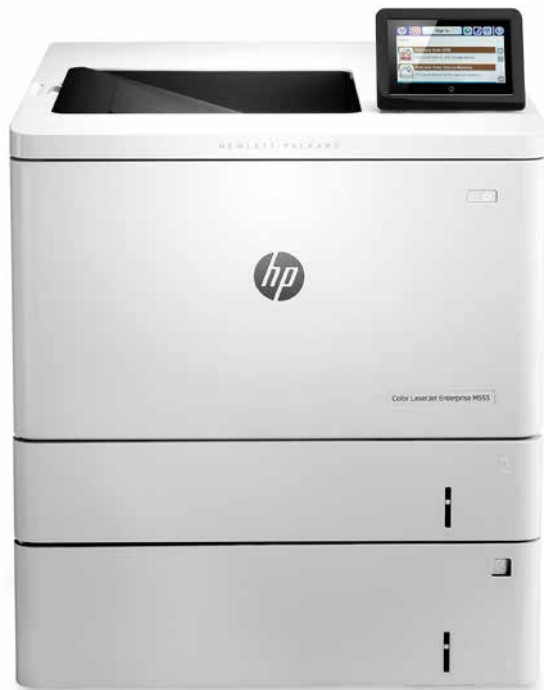

Toshiba has partnered with Brother® International Corporation, a leading provider of document imaging solutions. Its award-winning printers, multifunction devices, and scanners are all engineered to help individuals and businesses work smarter. Brother® provides unsurpassed quality, unequalled reliability and exceptional value in all their document imaging solutions. Brother's portfolio of document imaging solutions helps increase productivity, improve workflow, enhance efficiency and reduce costs.

LASER PRINTERS

Toshiba has formed a strategic agreement with Hewlett-Packard®, one of the global leaders in the multifunction printer market. As an Authorized Partner, we can offer our customers the entire HP® LaserJet product line including mono and color single-function and MFP products, scanners and DesignJet/ PageWide XL wide format. Toshiba can be your one-stop source for hardware, supplies and service of these devices.

LASER PRINTERS

Toshiba has partnered with Lexmark™ to provide best-in-class printing, multifunction and vertical market solutions. A leading developer, manufacturer and supplier of printing and imaging solutions, Lexmark™ has become known for its high-quality mono and color printers and MFPs. Let Toshiba be your single source for Lexmark™ printers and supplies.

WIDE FORMAT PRINTERS

The HP® DesignJet portfolio of printers, as well as software, inks, and printing materials are designed to meet and exceed your customer's expectations. HP® PageWide XL, DesignJet XL, Z-series, and T-series printers deliver the image quality, accuracy, speed, security, and color necessary to satisfy even the most demanding clients, while keeping costs low and helping you win new and repeat business.

WIDE FORMAT PRINTERS

KIP

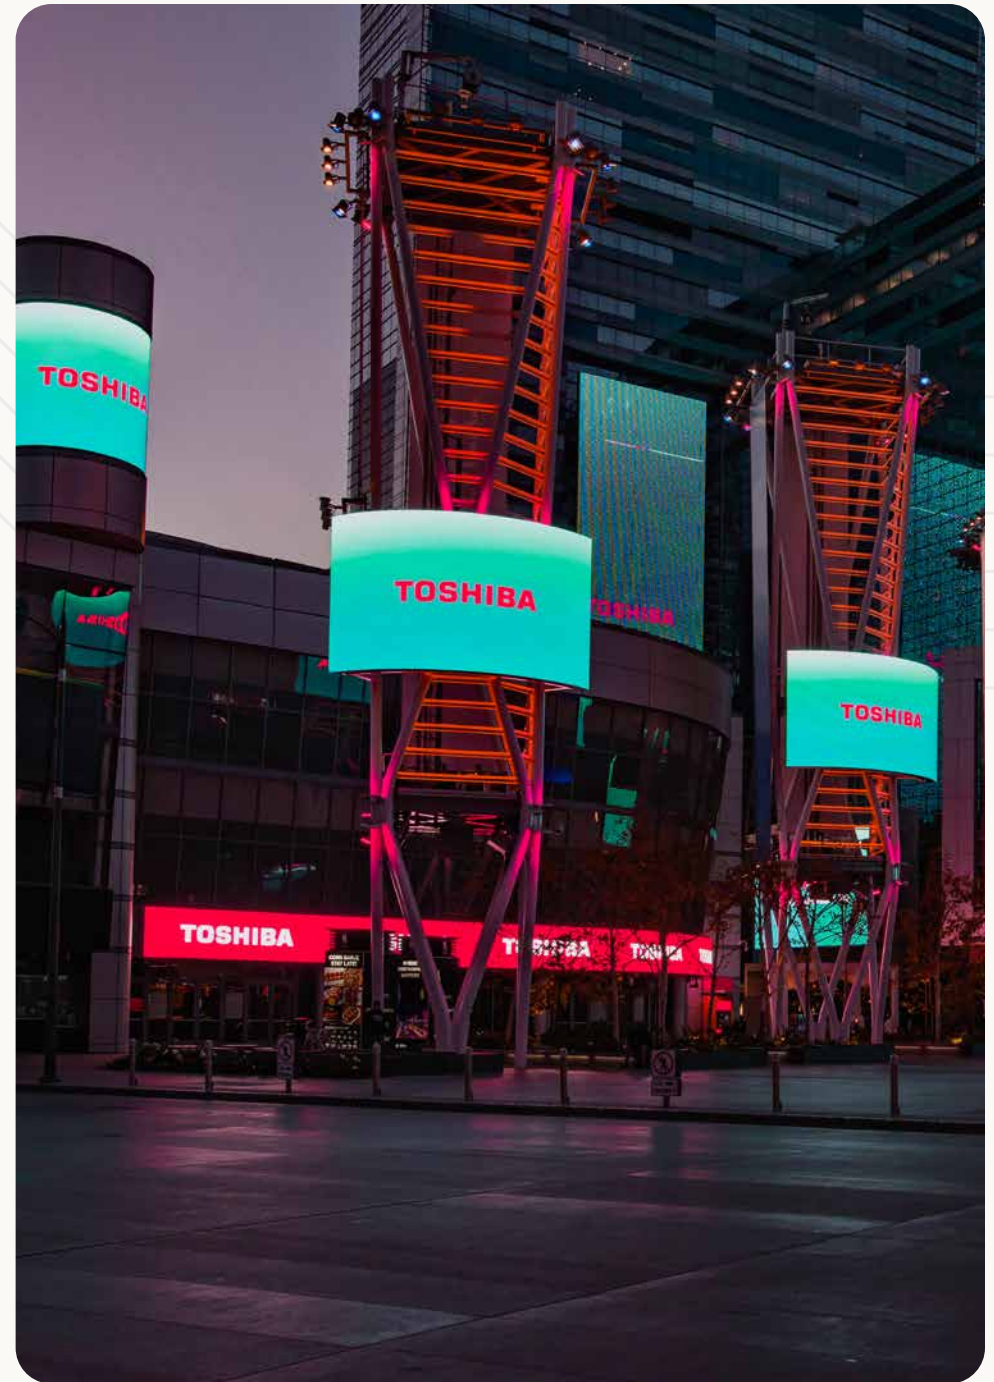

KIP® network print systems increase print production possibilities by delivering wide-format output with exceptionally reliable performance. These devices efficiently produce documents sent via application drivers, network PCs or the Internet. They meet the toughest printing demands of virtually any digital imaging environment and may be easily upgraded to incorporate black and white as well as color copying and scanning features.

Digital Signage

Take your business to the big screen.

Toshiba's Digital Signage Services team understands that every customer is unique. Our value is content expertise, professional design, worry-free implementation and operation, and a single point of accountability from a trusted technology leader. We offer thorough and comprehensive services for digital signage and network solutions your company needs.

Endless ways to go bold & go bright.

Kiosks

Engage people with your e-commerce platform or content through attractive, easy-to-install and always available, self-service stations.

Digital Displays

From menu boards to outdoor commercial displays, we offer weatherproof, scalable solutions to elevate customer interactions.

Video Walls

Enhance the customer experience through beautiful, engaging and interactive technology that looks great from any angle.

Engage audiences across industries.

From software to display, and everything in between, Toshiba offers best-in-breed digital signage platforms that empower you to easily manage your content on a single end point or world-wide network of devices.

Cross Platform Versatility

Experience Manager Solutions allow users to create content once and publish it to many different types of end points.

Users & Groups

Enable contributors while maintaining control with a well-structured set of user roles and permissions.

Device Monitoring

Remotely monitor, update, and control digital signage devices.

Scalability

By leveraging intelligent tagging features, users can easily create dynamic playlists that automatically distribute content by a variety of unique conditions.

Templates & Design Tools

With easy to use content authoring tools, users of all skill sets can quickly populate templates or create brand new content from scratch.

Urgent Alerts

The Emergency Alert system allows users to create a pre-designed library of alerts that can be instantly activated across all or a portion of your signage network.

Easy to Use

From creation to publishing, an intuitive interface guarantees an efficient flow and highest possible user experience.

Data Integration

Dynamically display content from a variety of third-party data sources, even combining multiple sources on one screen.

Bring a modern touch to your business.

Wayfinding

Make it easier for people to locate their desired destination as well as browse through everything your business offers.

Upsell

Make an impact right at the point of sale with custom-fit LCD screens that allow customers to study and compare products.

Cross-Sell

Allow sales associates to show customers in real-time what their purchase will look like, plus check for inventory and order deliveries.

XSellRate

Help shoppers quickly and easily place orders, find items in store, or even get new inspiration with these multi-function kiosks.

Endless Aisle

Never miss a sale with solutions that allow customers to easily order products online when they're not available in store.

Digital Menu Boards

Refresh the ordering experience with a network of displays available as either a cloud-based or locally managed solution.

Create and curate your vision.

Content Design

Our team designs solutions around your needs, not around our product line. We consider your audience, marketing objectives budget and timelines, and then offer solutions tailored to your needs.

Solution Architecture

Starting with a physical site assessment and considering factors such as environment, application, budget and network access, our professional services consultants will design a rock-solid solution that allows your message to shine brightly.

Media Management

Toshiba content designers work with clients to help amplify their brand image through engaging and eye-catching experiences. Services include hosting and managing client content across their entire signage network.

Implementation

From a single screen to a national network of thousands, Toshiba provides everything you need to implement a successful digital signage solution.

Installation & Service

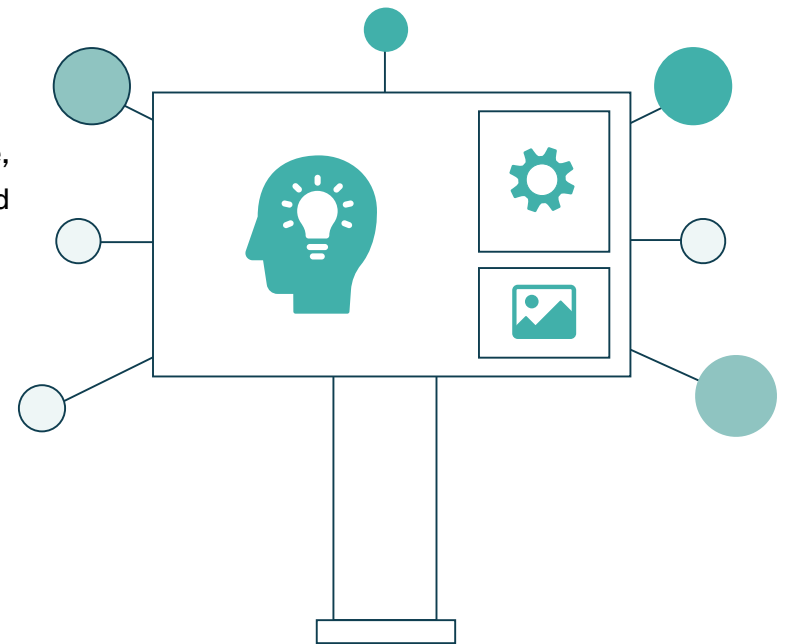

Nationwide installation and service coverage is custom-configured to suit the needs of your business.

Training

Toshiba's certified training team provides live training for hardware, content management systems and interactive solutions.

Project Management

The Toshiba Project Management Office (PMO) manages the entire rollout process from beginning to end and provides all of the services and support required to develop and implement a cohesive digital signage network from a single location to a global implementation.

Solutions & Services

Industry-leading partners, game-changing solutions.

Whatever your goals are, you can count on us to help you achieve them. With our Technology Snapshot, we provide you with a clear view of the latest innovations and how they can be leveraged for your success. Together, we can transform your business for the better.

Solutions & services that get you ahead.

INTELLIGENT CAPTURE

Document Conversion Services takes your boxes of paper and scans and indexes the data into a digital format that you can use to drive automated processes.

ABBYY

ABBYY™ Vantage is an Intelligent Document Processing platform providing easily consumable AI “skills” that understand your documents in a fast and simple way.

drive | image

Drive® | Image streamlines digitization and document routing processes with advanced, user-friendly, customizable tools for automated document capture, processing and secure distribution.

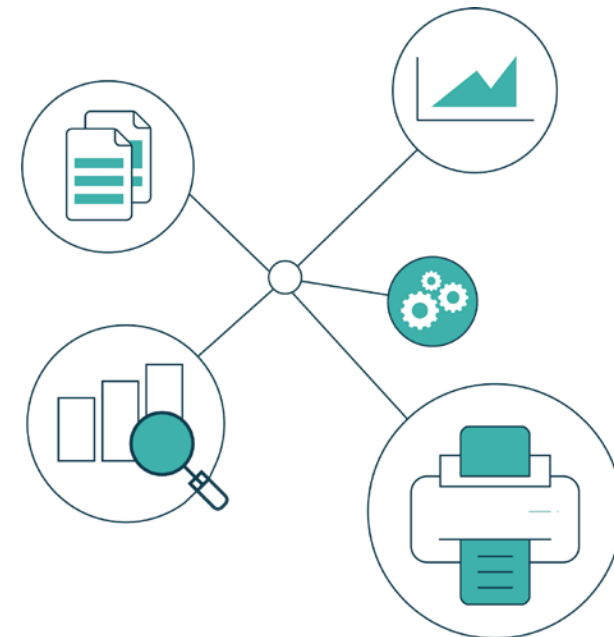

Kodak alaris

Kodak Alaris offers intelligent capabilities that can capture, convert, analyze, and deliver your data directly to a business process.

WORKFLOW AUTOMATION

drive | image

Drive® | Image streamlines digitization and document routing processes with advanced, user-friendly, customizable tools for automated document capture, processing and secure distribution.

CONTENT MANAGEMENT

DocuWare™, a global ECM leader, offers complete document management via cloud, on-premise or a hybrid-cloud solution. Known for highly secure, scalable, easy-to-integrate and future-proof technologies, DocuWare™ is available in 24 languages.

Key Benefits

- Automate business process for increased productivity & improved customer service
- Digitally handle workflow for optimum efficiency & transparency
- Appropriate for all document types regardless of their source
- Compatible with Toshiba multifunctional devices
- Integrates seamlessly into line-of-business applications
- Deployment options included cloud & on-premises

SECURE DOCUMENT EXCHANGE

opentext™ | XM Fax™

Transform the manual handling of your organization's inbound and outbound data transmissions into a managed business workflow. Opentext™ XM Fax™ is designed and continuously optimized to enhance productivity, streamline operations and keep companies compliant with ever-increasing regulatory requirements.

Key Benefits

- Increase efficiency & reduce operational costs
- Security & traceability
- Seamless MFP integration
- Improve environmental sustainability
- Supports T.38 Fax over IP & G.711 protocols & traditional fax boards
- Deployment options include on-premises & cloud

opentext™ | XM SendSecure™

Easy-to-use, highly secure, state-of-the-art exchange platform for files of all types, Opentext™ XM SendSecure™ facilitates safe file exchange by leveraging recipient authentication and ephemeral storage of sensitive files, allowing organizations to exchange files in a secure environment and ensuring that those files remain confidential.

Key Benefits

- Reduce the risk of data breaches
- Improve employee adoption & productivity
- Help achieve regulatory compliance
- On-the-go access
- Deployment options include on-premises & cloud

OUTPUT MANAGEMENT

From multi-vendor fleet support to serverless secure printing and more, Elevate Sky® Print Management is your complete print management and monitoring solution in the cloud.

Key Benefits

- Gain control over your fleet
- Take the burden off your IT department
- Print securely & responsibly
- Quickly & effortlessly deploy & manage your print devices in the cloud

e-BRIDGE® Global Print

e-BRIDGE® Global Print simplifies printing from wherever you work, allowing you to send print jobs to the cloud and securely release them at cloud-connected Toshiba or Lexmark™ compatible print devices, when ready.

Key Benefits

- Effortlessly submit print jobs to the cloud
- Authenticate with the latest security standards
- Securely pick up documents on demand
- Gain insights into productivity & savings
- Eliminate the pain of network-based models
- Simply achieve more, securely

e-BRIDGE Plus applications print and scan your documents directly and securely from Toshiba multifunction printers (MFPs) to the most popular cloud storage locations.

Key Benefits

- Gain flexibility and improve productivity
- Simplify document workflows
- Works seamlessly with Box™, Dropbox™, Google Drive™, Google Workspace™, Microsoft® Office 365® and Microsoft® OneDrive®

e-BRIDGE® Print & Capture turns your mobile device into a productivity powerhouse by enabling printing and scanning from virtually anywhere.

Key Benefits

- Scan & store paper documents in the cloud, allowing information to be effortlessly shared
- Provides a secure & convenient way of managing & sharing files
- Available for Google Drive™, Microsoft® OneDrive® and Dropbox™
- Works seamlessly with Microsoft 365® & Google Workspace™

PaperCut™ Hive is a hybrid cloud print management with agnostic MFP and SFP embedded software, IoT and Edge Mesh.

Key Benefits

- Print from any device to a single print queue & securely release print job using mobile phone or the MFP/MFD's touchscreen
- Built-in security features to keep documents private & on-site, helping to protect your data before, during & after printing
- Eco-friendly policies perfect for businesses wanting to reduce their environmental impact

PaperCut™ MF is a powerful on-premises print management solution to enable, track, manage, and secure your printing, copying, scanning, faxing, cost recovery and pay-for-print, from anywhere on any network.

Key Benefits

- Enable printing that just works on every platform
- Protect data before, during, and after printing
- PaperCut™ MF boasts eco-friendly policies to help you use less paper, save on toner & recover costs
- PaperCut™ MF makes scanning simpler, smarter, and more business-integrated than ever to give you more information, more readily.

LRS VPSX Enterprise provides a single point of control for managing output from best of-breed enterprise software applications, printing from user workstations, mobile devices, and more.

Key Benefits

- Capture output from any application, desktop, or device.
- Work better by preventing manual data input errors
- Work smarter by automating the capture & routing of documents.

Pharos Blueprint® is a suite of print management and optimization solutions built for complex print environments.

Key Benefits

- Reduce print costs
- Enhance security
- Manage printer fleets efficiently

MANAGED PRINT SERVICES

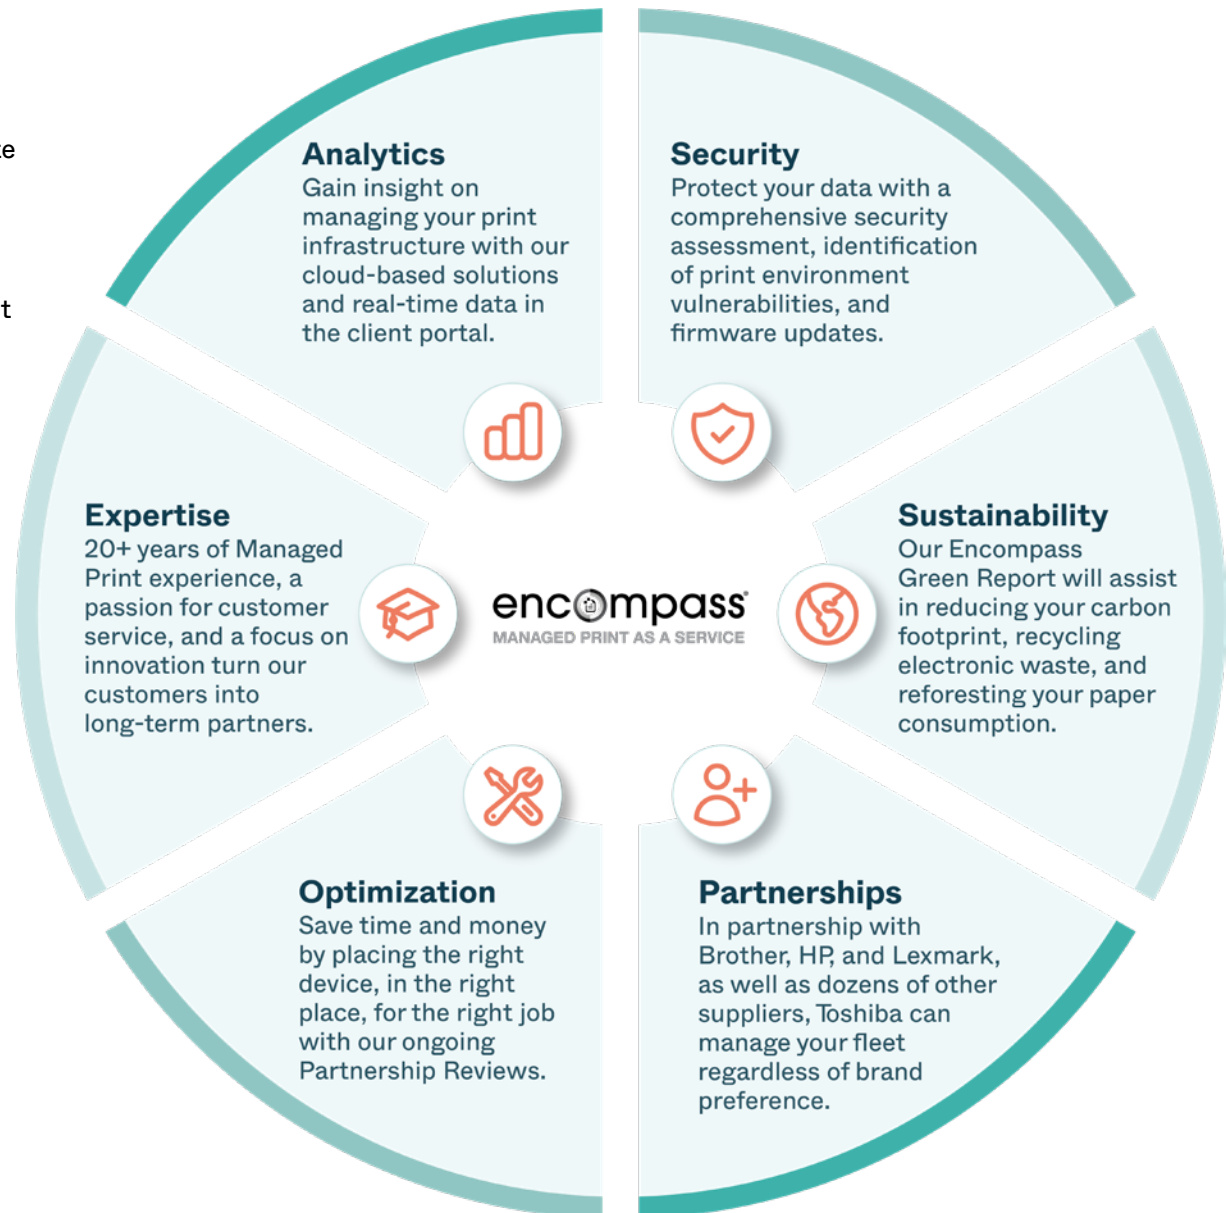

encompass[®]

MANAGED PRINT AS A SERVICE

Reimagine your workplace so you can concentrate on your business with Toshiba's Encompass[®] Managed Print as a Service (MPaaS). We'll help you reduce spending, improve productivity, and provide secure and sustainable tools for your print environment and beyond.

Key Benefits

- Secure data
- Minimize environmental impact
- Optimize print assets
- Gain insight into device performance
- Save valuable time & money

Our Encompass® PageSmart program allows you to only pay for what you use and a variety of our applications, configurations and practices help reduce how much you print.

Key Benefits

- Pay only for what you use; no extra supplies to store
- Simplify procurement, budgeting, delivery & service to your entire fleet
- Lower your carbon footprint

Your single point of accountability.

We believe printer management should be simple and comprehensive, that's why we offer one contact for all your equipment, service, supplies and solutions across multiple brands—making it easy to understand the true cost of your printing.

TOSHIBA

brother

PROFESSIONAL SERVICES

Consulting

We meet with you to fully understand your current process and design a plan of action to improve workflows, reduce costs and manage risk.

Project Management

From supporting teams at a high level to managing day-to-day details, we help you plan and complete projects on time, on budget and on point.

Implementation

Our System Engineers bring years of experience and knowledge to ensure applications are up and running smoothly and process is put into practice.

Support

Once projects are complete, our team of support professionals provide continuous guidance. We are recognized for award-winning remote and on-site support.

Our Values

Put Clients First

We make our clients and their satisfaction our essential focus.

Seek Innovation

We seek constant innovations to deliver better products and partnerships.

Solve Problems

We constantly seek new and effective ways to solve our clients' business problems.

Empower Others

We continuously aim to impact our colleagues and clients in positive and supportive ways.

Embrace Diversity

We believe that diversity of people, thought and experience brings greater value.

Deliver the Exceptional

We strive to go above and beyond to deliver exceptional client experiences in all aspects of our business.

Act Responsibly

We uphold the highest standards of social, environmental, and ethical responsibility.

Our Quality Commitment

The Toshiba Quality Commitment is our guarantee that you're getting the utmost in advanced technology, dependability, service and support. Toshiba stands squarely behind our promise with the assurance of complete satisfaction. Everything we do contributes to that goal—from setting the industry standard for research and development, to providing timely access to Toshiba support personnel. See the difference. Toshiba sets the standard, with quality guaranteed.
